

WE envision an all-inclusive society in which individuals 50+ live, thrive, and have a quality of life supported by systems, policies, technology, infrastructure and resources that address their continuum of life needs.

Creating Aging Solutions Through Collaborations

OUR COMPANY VALUES:

- The perspective of aging individuals is relevant
- Meaningful aging is intentional
- Dignity and respect of seniors is a standard
- Evidence-based solutions and outcomes drive us

DYNAMIC SOLUTIONS
FOR THE AGING

Customized Age-Friendly products, services, tools and resources for individuals 50+ years of age

SERVING THE AGING POPULATION FOR OVER 20 YEARS

AgingDesign®

Design Age-Friendly spaces, which includes residential, industrial, landscape & commercial (new and rehab) construction.

AgingCommunities™

Develop and implement evidence-based aging products and solutions for the creation of Age-Friendly cities, communities, and businesses.

AgingReady®

Provide education and training on how aging trends impact current and future policies, resources, environmental factors that effect cities, communities, and individuals through research and published data.

Aging On The Go!®

Create media products, apps, and digital platforms that support healthy aging and social interconnectedness and produce Aging Analysis and Associated Tools.

CORE COMPETENCIES

AGING ANALYSIS & ASSOCIATED TECHNICAL TOOLS

Develops evaluation tools, comprehensive technology modules, data platforms, and custom frameworks to track and drive program improvements and outcomes.

BUSINESS MANAGEMENT & SERVICES

Assists individuals and organizations with business development strategies to accomplish desired goals and objectives.

COMMUNITY & NEIGHBORHOOD REVITALIZATION

Creates and encourages the development of Age-Friendly livable spaces where individuals and families can live, work, grow and thrive.

EDUCATION & TRAINING SERVICES

Helps individuals and organizations scale and navigate areas related to Aging Development, Health, Housing, Public Policy, and Community Relations through custom educational training modules.

EMERGENCY PREPAREDNESS & RESILIENCE PLANNING

Delivers emergency preparedness and resilience planning for aging individuals, caregivers, families, and businesses that serve them.

HEALTH SERVICE SUPPORTS

Coordinates health services that are performed and provided that promote, improve, conserve, or restore the mental or physical well-being of aging individuals.

RESEARCH AND EVALUATIONS

Produces reliable research related to populations and connected critical issues, particularly in the areas of aging, health, housing, community development, and the social determinants of health.

SPACE DESIGN

Designs Age-Friendly residential, commercial, and landscape spaces for individual, organizations, and community developers.
